

the Ibero-American Summit held in Havana in November 1999. Despite being confined in the horrors of the gulag, Mr. González bravely continued his peaceful activities to bring liberty and freedom to Cuba.

Unfortunately, Mr. González Marrero was arrested again in March 2003, as part of the repulsive island wide crackdown against peaceful pro-democracy activists. In a sham trial, he was sentenced to 20 years in the totalitarian gulag.

The family of Mr. González Marrero has reported that he was being held in solitary confinement in a punishment cell where he is deprived of any sunlight, adequate ventilation or drinking water, and subjected to temperatures of 30 to 32 degrees centigrade. According to Amnesty International, Mr. González Marrero is suffering from high blood pressure and inadequate medical attention to his failing health.

Let me be very clear, Mr. González Marrero is languishing in the depraved dungeons of the tyrant's gulag because he desires freedom for the people of Cuba. His demand for the rights of man to be given back to the citizens of Cuba is the only reason that he is locked in the abhorrent filth of Castro's prisons.

Mr. Speaker, as we gather to celebrate the results of our democracy and to commence the first session of the 109th Congress, it remains repulsive that, only 90 miles from our shore, brave souls like Mr. González Marrero are locked in dungeons because they too believe in the freedoms we hold sacred to our way of life. My Colleagues, let us remember those who suffer under the nightmare that is the Castro regime. Let us demand the immediate release of Diosdado González Marrero and every prisoner of conscience languishing in the dungeons of totalitarian despots.

INTRODUCTION OF THE MANUFACTURING TECHNOLOGY COMPETITIVENESS ACT

HON. VERNON J. EHLERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, January 6, 2005

Mr. EHLERS. Mr. Speaker, I rise today to introduce H.R. 250, "The Manufacturing Technology Competitiveness Act." I introduced this legislation in the 108th Congress, and it was passed by the House. I am re-introducing it in this Congress in the precise form passed last year. I am doing this because the global competitiveness of U.S. manufacturing remains a pressing issue.

This bill will help address long-term problems facing our nation's manufacturers by coordinating existing federal manufacturing programs, creating a new program to revive manufacturing innovation through collaborative research and development, and broadening and strengthening manufacturing extension.

Although manufacturing has experienced tremendous technological gains over the last few years, international competition has exacted a terrible toll on our nation's manufacturers. In particular, our small- and medium-sized firms are under tremendous pressure to become more efficient, to modernize, and to cut their prices. There is no evidence that these pressures are likely to go away.

In my conversations with manufacturers, I learned of their deep concern that the decline of manufacturing in the U.S. is undermining our ability to innovate. Innovation is the key to the development of new industries, without which our economy could stagnate. Governments of our global competitors are eagerly supporting investments in manufacturing R&D because they know that it is the foundation for sustained economic development.

If we are to continue to be the world technological leader, we need to rise to this new global challenge by supporting our manufacturers. The Manufacturing Technology Competitiveness Act, which received broad support in the House in the 108th Congress, will accomplish that by:

Creating an Interagency Committee that will coordinate the existing federal manufacturing research and development activities to ensure that they work as effectively and harmoniously as possible;

Creating a new collaborative research and development program for manufacturing technology;

Reauthorizing the critical programs at the National Institute of Standards and Technology (NIST), a federal research laboratory dedicated to ensuring U.S. leadership in technology-based standards and industries;

Creating a fellowship program at NIST to develop U.S. manufacturing research expertise; and

Reauthorizing and creating a new grant program within the Manufacturing Extension Partnership (MEP) program so that the MEP Centers can extend their expertise to a range of problems beyond their current scope of activities.

Mr. Speaker, globalization is in full swing. It is incumbent upon this Congress to provide a coherent federal response to the changes that are underway in manufacturing, and to support the technological innovation that is fundamental to retaining our manufacturing strength. This bill provides a mechanism for that crucial response and I look forward to working with my colleagues on this issue in the 109th Congress.

IN HONOR OF REVEREND THOMAS C. BLESSIN, S.J.

HON. ROBERT MENENDEZ

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, January 6, 2005

Mr. MENENDEZ. Mr. Speaker, I rise today to honor the Reverend Thomas C. Blessin, S.J., for his 55 years of service to the Society of Jesus and the people of his community. Father Blessin will be receiving the 2004 Reverend James F. Fox, S.J. Award at the Loyola School of New York's Annual Alumni Dinner on January 7, 2005.

Throughout the years, Father Blessin provided a strong spiritual foundation for the members of his community. Born, raised, and ordained in Staten Island, he later moved to New Jersey where he spent decades ministering to the community and attending to the spiritual needs of congregants at various churches, missions, and spiritual retreats.

In addition to his work with churches around the area, Father Blessin served for 9 years as the assistant headmaster at Loyola High School and an additional 2 years as the school chaplain. For 25 years, he was a chaplain and active member of the New Jersey National Guard. He later worked at St. Peter's College where he offered mass and assisted with student services. Currently, he is retired and living in the Jesuit residence at St. Peter's College in Jersey City.

Today, I ask my colleagues to join me in honoring the Reverend Thomas C. Blessin, S.J., for his outstanding spiritual leadership and years of faithful service to the people of New Jersey. His dedicated work throughout the decades has helped to enrich the lives of so many throughout our community.

REMEMBERING MONSIGNOR MCDERMOTT

HON. RAHM EMANUEL

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, January 6, 2005

Mr. EMANUEL. Mr. Speaker, I rise today to mourn the loss of a beloved leader of the Chicago Archdiocese, Monsignor Ignatius D. McDermott, who passed away on December 31.

Monsignor McDermott, known affectionately as Father Mac, was born on Chicago's South Side on July 31, 1909. He was ordained in 1936 after studying at Quigley Preparatory Seminary and Mundelein's St. Mary of the Lake Seminary.

Demonstrating a lifelong commitment to helping those most in need, Monsignor McDermott often walked the streets of Chicago's poorest neighborhoods in order to comfort the homeless and help recovering drug addicts and alcoholics return to sobriety, happiness and meaningful lives.

In 1946, Monsignor McDermott was appointed assistant director to the Chicago Archdiocese's Catholic Charities. Advancing his commitment to helping individuals with substance abuse problems, he founded Catholic Charities' Addiction Consultation and Education Services and the Central States Institute of Addiction.

After nearly four decades of service, Monsignor McDermott cofounded the Haymarket Center in 1975. Named for its location near Haymarket Square in Chicago, the detoxification center offers residential and outpatient services. As a direct result of Monsignor McDermott's compassion and dedication, the center has continued to expand over the years and now serves over 14,006 people each year.

Mr. Speaker, I join with the people of Chicago in recognizing the life of Monsignor McDermott. Together we honor his service and lifelong dedication to community service as well as the lasting impact he has had on the countless individuals he touched and whose spirits he lifted throughout his distinguished career. His many contributions leave an indelible mark on our community that will always be remembered.
